

CH26 | DINING CHAIR - Design: Hans J. Wegner

DESCRIPTION

- Carl Hansen & Søn has breathed life into Hans J. Wegner's previously unknown CH26 dining chair design from 1950.
 - The CH26 dining chair is closely related to the CH22 lounge chair. Both have good ergonomics, a sturdy construction and characteristic curved armrest supports.
 - CH26 also features characteristic Wegner traits such as organic shapes, light-colored wood varieties, a distinctive back support and a woven seat.
 - The CH26 dining chair is being manufactured in exact accordance with Wegner's original, hand-drawn sketch, the only exception being the extra two centimeters added to the height of the chair to accommodate modern tables and taller people.
 - CH26 is made of solid wood with a form-pressed veneer back with an organic shape. The chair is available in solid oak and walnut as well as in a combination of these woods with various. The seat is available in natural or black paper cord.
 - The back shell design features oblong cover caps on each side - either made using the same wood as the frame or a striking contrast color.
-

HISTORY

- When Wegner created the CH22 lounge chair, recreated by Carl Hansen & Søn in 2016, he also set down a blueprint for transforming the lounge chair design into the CH26 dining chair - a design that until now has not been manufactured and evidently not even made into a mockup.
 - As CH26 is a dining or desk chair, Wegner was obliged to consider the use and the height of the table and accommodate both in the chair's proportions. In relation to CH22, Wegner has therefore chosen to adjust the frame structure and the seat design, thus strengthening and stabilizing the chair.
-

THE DESIGNER

As a driving force behind 'Danish Modern', Hans J. Wegner helped change the general public's view of furniture in the 1950s and 1960s. His passion for designing chairs, more than 500 of them, is recognized worldwide and reflected in his title 'the Master of the Chair'. He is famous for integrating perfectly executed joints with exquisite shapes and combining them with a constant curiosity for materials and deep respect for wood and its natural characteristics. His designs furnish minimalism with organic and natural softness.

Hans J. Wegner was born in 1914 in Tønder in Southern Denmark, the son of a shoemaker. At the age of 17, he completed his apprenticeship as a cabinetmaker in the workshop of H. F. Stahlberg where his first designs saw the light of day. At the age of twenty he moved to Copenhagen, Denmark, to attend the School of Arts and Crafts, where he studied from 1936-1938 before embarking on a career as an architect.

In 1940, Wegner joined Arne Jacobsen and Erik Møller and began designing furniture for the new City Hall in Aarhus, Denmark's second-largest city. This was also the year when Wegner began working with master cabinetmaker Johannes Hansen, who played a major role in introducing modern design to the Danish public.

Hans J. Wegner opened his own drawing office in 1943. In 1944, he designed the first China Chair in a series inspired by Chinese chairs from the Ming dynasty. One of these chairs, the Wishbone Chair, designed in 1949 and produced by Carl Hansen & Søn since 1950, went on to become Wegner's most successful design of all time.

Hans J. Wegner is considered one of the most creative and productive Danish furniture designers of all time. He has received several accolades given to designers, including the Lunning Prize in 1951 and The 8th International Design Award in 1997.

He became an honorary member of the Royal Danish Academy for the Fine Arts in 1995, and an honorary doctor of the Royal College of Art in 1997. Almost all of the world's major design museums, from The Museum of Modern Art in New York to Die Neue Sammlung in Munich, feature his

furniture in their collections. Hans J. Wegner died in Denmark in January 2007 - at the age of 92.

Carl Hansen & Søn's alliance with Hans J. Wegner began in 1949 and resulted in the production of a wide range of Wegner designs spanning dining chairs, easy chairs, footrests, sofas and coffee tables, dining tables as well as high-end office furniture and children's furniture. Wegner's iconic designs from Carl Hansen & Son include the Shell Chair, Wing Chair and Wishbone Chair.

ENVIRONMENTAL INFORMATION

Carl Hansen & Søn and sustainability

People's fascination of the combination of good design and wood, as well as other natural materials, is something that transcends time and fashion. At Carl Hansen & Søn, we believe that this fascination helps to explain the great interest in our furniture, and we take very seriously concerns about the sustainability of the natural resources upon which we depend for our products. That is why we strive every day to improve our production methods, logistics and sales efforts in respect of scarce natural resources.

We buy wood only from sustainably managed forests. All sourced wood meets EUTR 2013 regulations, Danish Forest Legislation and current international certifications. Oak, beech and ash come primarily from Danish forests which are managed according to the principles described in Denmark's National Forest Programme; some of these wood types are also sourced from other similarly managed European forests, or, in the case of walnut and cherry, North American forests.

We use every possible bit of these fine hardwoods in our furniture production. Inevitably, however, there are some scraps, which are then used to produce other products or recycled in district heating plants.
